

## ERS DESIGN

### *vermont*

ERS Design is a full-service interior design firm that provides highly personalized design assistance for residential projects throughout New York and New England. Established by Elizabeth Swartz, ASID, in 1985, the firm possesses the wealth of expertise one would expect from decades of professional experience. ERS is involved in all aspects of the process, from the initial concept to the completion of both new construction or renovation projects, including decorating and furnishings. The client's aesthetic and functional needs and desires are interpreted to create relaxed yet elegant environments that express a client's personal style. From the living room to the kitchen and bath, from the family room to the pool house, ERS addresses the requirements of furnishings, including the lighting, window treatments and the acquisition of art, antiques and accessories. "Before beginning any project, we carefully assess the needs of our clients in order to respond with appropriate individualized design solutions," says Swartz. ERS has strong relationships with craftsmen and artisans who create those one-of-a-kind details needed to complement client tastes. The work of ERS Design has been featured in numerous publications both regionally and nationally, and has received multiple design awards.
